Assemblyman Dunn Comments On Essay By Lee Christensen

Dear Mr. and Mrs. Christensen:

When I read the essay, "What the Constitution of the United States of America Means to Me," written by your son Lee and printed in the San Leandro News, I was deeply impressed and decided to write Mr. Kofman and Mr. Tusing complimenting them on their public spirited attitude in giving their readers an opportunity to read what had been so simply and clearly written about the privileges and responsibilities of American citizenship.

On Wednesday, March 18, in the State Assembly Chamber, we had the privilege of meeting two boys who had written essays on "Home Ownership" which were accorded the privilege of being read in the Assembly. I am sure that your son's essay should be made available to the citizens of California and should become a permanent part of the history of California, so I requested that you be granted permission to have the editorial containing his essay printed in the Assembly Journal also.

It was not until Sunday night, March 24, that I heard that you had lost your son. I know there is a little that I can say on such an occasion. The State has lost a potentially a leading citizen, but in his essay he has left behind a contribution to the American ideal of democratic self government which few live their full span of years can contribute. May I express to you my deepest sympathy.

Sincerely yours,
Signed: Francis Dunn, Jr.
Member of Assembly 33th Dist.,
California Legislature.

Clever, how the singers took the

A. K. Goodmanson Roofing Since 1906

In 1906 the San Francisco earthquake shook the bay region and started a new chain of events. One business that began in 1906 was the good roofing company now widely known as A. K. Goodmanson and Son, 1400 North and Avenue and Clement in East Oakland.

The firm has grown with the country since 1906 and has put roofs over the heads of thousands of families as well as over hundreds of commercial and industrial buildings.

At the close of the Relief Society season several planning events took place. In one, Ruth Hillon told of visiting many noted biblical locations in the Holy Land.

Another building fund noted, the food sales held in Newark, gave to the bishoiphic over \$100.

By Elder O'Brien, President of Northern California Mission
Some people say that the day of miracles has passed. Some people say that things such as this just don't happen, yet here is a story that was related to me, which will leave you breathless and wondering. It concerns two conspicuous boys of the United States Marine Corps, and the battle for the Marshall Islands in World War II.

The time was just before dawn when the group of boys which were battling the Japanese on the horizon of the blue Pacific. Ahead of them was the first sign of the drive to take one of the islands.

Tobacco Firms Mapping Fight On Cancer Claims

A plan for concerted action to clear cigarette of guilt for causing lung cancer is being mapped by the major cigarette manufacturers at secret meetings, according to newspaper dispatches of January 2.

The industry is convinced the cigarette is innocent and concerned lest the wide publicity given to the charges cut down volume and profits.

At stake also are large amounts in the billions of dollars annually paid by the industry in federal, state and local taxes and to various advertising media, plus millions of jobs in farming, production and distribution.

Several young Oakland members are home from attending school. These Brown is home from a graduate of Stevenson's school. Frank Higham, Sharon Higham, Robert Larson, and her husband Robert Larson, are home from attending the "Y."

Five babies were blessed last Sunday: Ray Loney, Richard Loney, Eugene Nicholson, Cynthia Marie Williams, Robert Edna Ogden, and Richard Kelly.

Some of the interesting events of the past month were the picnic party sponsored by the choir for all those who participated in the musical for home coming week, and the picnic party for the choir for all those who participated in the musical for home coming week.

De Vere F. Baker, Shipbuilder, Also Designer and Builder of 'Lehi' Aims to Prove Book of Mormon Story

San Francisco, June 16.—Final outfitting of the raft "Lehi" has been completed and everything is in readiness for the 2,800-mile survival and scientific cruise to the Hawaiian Islands which leaves from the Bay Area on July 4 at 8:30 a.m. manned by an adventurous crew of six.

Head of the Lehi Scientific Expedition, Inc., is De Vere F. Baker, a Petaluma shipbuilder who has won both the Army and Navy "E" medals for shipbuilding light craft during World War II. The expedition will attempt to trace Lehi's original voyage in 1955 following a regional voyage to Honolulu.

Baker, 38, has been interested in rafts all his life and has built and perfected them since early boyhood. In discussing the "Lehi," Baker says, "This is by far the best I have ever constructed and the most seaworthy one I will take on nearly 25,000 miles over the face of the globe before we are through."

The longer trip Baker plans from the Gulf of Persia to Central America is patterned after the writings of Prince Teihei, a Japanese "blue-blood" who claims that a "white race" were the original colonizers of Central America.

Baker, a former U.S. Army colonel, is a second generation from a family of 600 B.C., coming from Palestine. Persistent ocean and air currents are expected to carry the raft, a 16 x 32 foot, seven-ton pentagon-shaped craft, to its destination.

Baker is a former Ogden and West Point, Davis County, resident. He now resides in Petaluma, Calif., where he is served as president of the Petaluma Branch, Church of Jesus Christ of Latter-day Saints.

He is a wartime shipbuilder in the Henry J. Kaiser yard, supervising the construction of the raft at a shipyard he now owns in Sausalito, Calif. He is also a member of the Ogden and West Point, Davis County, resident. He now resides in Petaluma, Calif., where he is served as president of the Petaluma Branch, Church of Jesus Christ of Latter-day Saints.

New Yorker Sees Utah As Top A-Power State

Utah can be seen by a prophet of atomic energy as the top power state in the nation, said a New Yorker, editor of a mining journal, before the Utah Mining Convention, June 15.

What is the reason for this? "Utah has uranium, and it is accumulating a small library and spending time and money to develop the power too," he said.

Members of the church are invited to attend and receive special consideration for the Utah Mining Convention, June 15.

Utah's 'Lehi' Mountains

"Walkers, Hawk of the Mountains," by Paul Bailey, is said to be a fine history of the only Utah built around the exploits of a fabulous Indian, Chief Walkers. Bailey is an enthusiastic researcher and writer. He started the Ogden College football squad, and at 13 he broke a shot-put record at a BYU field day.
